

WILDEST AFRICA

NAMIBIA, ANGOLA & ZAMBIA

JOIN US FOR THIS INCREDIBLE EXPEDITION THROUGH WHAT IS THE ABSOLUTE ESSENCE OF 'WILDEST AFRICA'.

'THIS 4WD EXPEDITION STARTS WHERE ALL THE OTHERS FINISH OFF!'

Our journey will start or end at Victoria Falls, Zambia, or the finest city of southern Africa, Windhoek. Once we depart our hotel we're into an Africa that few people are aware of and even less have experienced.

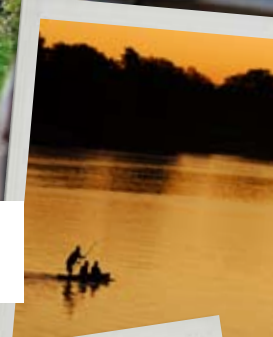

The fantastic and varied wildlife of Etosha NP in Namibia is unforgettable and with luck you'll not only see the Big Five but also come face-to-face with one of Africa's rarest and most elusive animals, the black rhino.

The towering sand dunes of the northern Namib Desert along the coast of the Iona NP in Angola are truly impressive and reaching the sand island of Baia dos Tigres will be an interesting and challenging 4WD trip.

Kafue NP is a remote wilderness in western Zambia with the Busanga flood plains stretching away to a distant horizon. Huge herds of antelope swarm over the plains, which offers a prime hunting ground for the largest population of big cats in southern Africa.

For something entirely different we'll have two nights on a houseboat on Kariba Dam. The fishing here can be electric while the game viewing stunning.

We're taking just eight vehicles with us. As we need to be completely self sufficient for much of the time our support crew is extensive, well trained and equipped for every eventuality. And, to give you the complete 'African experience' we've organised some truly memorable lodges for us to enjoy in between those nights when our rooftop tents will be our only choice of nightly abode!

TRIP 1
20 AUG - 26 AUG 2010
WINDHOEK (NAMIBIA)
TO LIVINGSTONE (ZAMBIA)

TRIP 2
21 SEPT - 16 OCT, 2010
